

# Essential Eligibility Criteria

## Eden Gardens State Park

### **Star Gaze**

In order to participate in this program, one:

- Must have the ability to follow visual and/or verbal instruction independently or with the assistance of a companion. Telescopes are expensive pieces of scientific equipment and children must be supervised by parents when engaging in this program.
- Must have the ability to withstand exposure to the outdoors for up to two hours. Program takes place at night, with the possibility of greater insect impact on Tucker Bayou impacting guest experience. Guests should provide their own repellent.
- Must have the ability to traverse terrain with minimum visibility independently or with the assistance of a companion, as there will be minimum light in order to view dark skies.
