

Lake Griffin Additional Questions

- When do the fees start with the sites approved for glamping; Campground is currently under renovation, and sites need prepped and set up to accommodate patrons.
 - We anticipate project completion with the campground renovation to be in January of 2026. In your proposal please indicate the anticipated start date of your services. Nightly use fees will begin once the camping sites are removed from the parks inventory and made available for concession's use unless otherwise negotiated.
- Would we be required to pay a reservation fee that is currently charged per reservation with the park reservation service?
 - There is no reservation fee charged for sites being managed by concessions.
